- Teamwork
- Creativity
- Problem-Solving
- Enthusiastic / Motivator
- Adaptability
- Leadership
- Logical and Critical Thinking
- Emotional Intelligence
- Proactivity
- Self-Taught
- Ability to Learn Quickly

Summary

I am a self-taught full-stack developer with solid experience in web and mobile development. I am proficient in technologies such as HTML, CSS, JavaScript, and React on the front end, as well as Node.js on the back end, and I am expanding my knowledge into C# (.NET). Passionate about challenges, I constantly seek to innovate and grow in the technology field.

My creativity and collaboration skills allow me to inspire teams with enthusiasm and a friendly approach. My greatest strength is my ability to learn quickly, easily assimilating new technologies and concepts. I am ready to apply my technical and interpersonal expertise to innovative projects.

Experiences
